

MICHAŁ KOCIK

FULL-STACK DEVELOPER

WORK EXPERIENCE

Projekt Korrekt

Intern

Lepizig - Germany

05.2018 - 06-2018

As a part of this project, I received extensive training in areas of web design, web development, smart home and network technology.

Tesco Reading Distribution Centre

Goods-in Q/A

Reading - United Kingdom

09.2019 - 12.2023

As a member of the goods-in-checkers team, I was responsible for ensuring that all quality and accuracy requirements for received goods were met. My key responsibilities included creating high-end reports and passing them to the office. Working in a fast-paced environment, I learned to collaborate with the team under pressure, target and solve problems with high precision, which helped my team make fewer critical mistakes and improved the overall performance of the entire facility.

Freelance

Junior full-stack developer

Remote

12.2023 - current

As a Freelance Full Stack Developer, I've cultivated a diverse skill set encompassing both front-end and back-end development technologies. My role involves collaborating with clients from various industries to understand their needs and deliver bespoke web solutions tailored to their specifications. I thrive in dynamic environments where I can leverage my expertise to create efficient, scalable, and user-friendly applications
